SKILLS

- Tolerance
- 3D Design (Solidworks)
- Programming (python, C++)
- Electrónica circuits
- Analytical reasoning
- Fast Learner
- Teamwork
- English C1
- German B1

EDUCATION

Carrier in Engineering mechatronics

University Mondragón México

2022 -- actuality

ABOUT ME

I have a relaxed personality, someone that's easy to talk to. I concentrate in projects and things that catch my interest, as well as I can work in team, in my way, but if needed to I can adapt to the way is asked for.

LABORAL EXPERIENCE

3D Design

SEEMIC 2023

While working in SEEMIC, I designed some pieces that were used for some projects

ACADEMIC PROJECTS

Mercapinter

It's the name of our first team, and developed a hydro-electric forklift.

P.D.R.

It's the abbreviation of our second team, in which we developed a magnetic floater.

Indox

This name is from our third team, where we developed a two floor parking lot, using a hydraulic system for the depression and elevation of the platform.

VALUES

The values that represent me are, Honesty, Responsibility, Punctuality, and Respect
